

Strategic Generosity for Amnicon

When you support Amnicon, you have a profound and lasting impact for our campers! Your support makes it possible for young people to discover their strengths, experience peace, build lasting relationships, and experience God's presence in awe-inspiring ways in the wilderness. The timeless life lessons that our campers learn at Amnicon are the kinds of things we want to instill into future generations forever.

Many donors have found joy and satisfaction out of discovering strategic ways to maximize the impact of their generosity to Amnicon. Here are a few suggestions to consider, and we would love the opportunity to discuss each of these with you if one of them feels right for you.

IRA Qualified Charitable Distributions

If you are taking a yearly required distribution from an IRA and are at least 70 1/2 years old, you can direct your distribution to charity. While you cannot use a QCD as a tax-deduction, it does reduce your taxable income. This may mean a lower income tax rate, less tax on Social Security income, lower Medicare premiums and more.

Stock Transfers

If you own stocks, mutual funds, or other securities it can be a tax advantage to use them as a charitable gift. When you give in this way, you can still claim a deduction for the full market value of the security, and you avoid paying capital gains tax that would be owed if you sold those securities and donated the cash from the sale. Contact Amnicon for up-to-date brokerage account information.

Matching Opportunities

There may be strategic matching opportunities available to you if you look for them. Matching your gift will double your impact! Many large employers will match donations made by their employees. Ask your financial planner if matching opportunities are available through your donor advised fund.

*Thank you for
strategically leveraging your
generosity to Amnicon!*

Here's Amnicon's info. You may need this to make a designation.
